CS344: Assignment 4

Group number : 24

There are **4** files which we need to run using **vdbench**. After creating ZFS and ext4 partitions, place **zfs_compression**, **ext4_compression**, **zfs_large_file** and **ext4_large_files** in the **vdbench** folder. Run the following commands one by one:

```
 sudo ./vdbench -f zfs_compression -o compression_zfs
sudo ./vdbench -f ext4_compression -o compression_ext4
sudo ./vdbench -f zfs_large_file -o large_zfs
sudo ./vdbench -f ext4_large_file -o large_ext4
```
